

## **Year 3**

### **Intent**

In Year 3 at Abbey Hey Primary Academy, we will deliver an education with character through a broad and balanced curriculum. We incorporate the school's values into every aspect of teaching and learning which provides children with the vital skills they need in order to make good progress in terms of their educational, social, moral, cultural and spiritual development. At Abbey Hey, we believe in nurturing the whole child and embedding in children the tools they need to be successful both throughout their primary education and in later life. We teach children to be confident, ambitious, resilient, creative, determined, respectful and enthusiastic in their learning and to apply these skills to solve problems and face challenges. Through everything we do we aim to inspire a love of learning in the children which raises aspirations and prepares them for a happy and successful future.

### **Implementation**

By the end of Year 3 children will have had the opportunity to experience the following opportunities:

- Take part in a Roman banquet
- Eat something you've never tried before
- Create a mosaic
- Try yoga
- Visit an art gallery
- Compose a piece of music
- Make chocolate
- Visit a historical site
- Learn a Spanish song
- Learn a new skill and teach it to the class

## Impact

The Year 3 provides children with a broad and balanced curriculum, which is of a high quality and shows progression across the year to support children to achieve their potential and encourage them to be responsible and reflective learners. Maths is taught systematically following Maths No Problem, which enables children to become fluent, reason and solve problems. Children are introduced to a variety of high-quality texts through Guided Reading and English lessons. They are frequently read to by adults and have opportunities throughout the day to read to an adult, which develops fluent, confident readers and promotes a love of reading in all children.

As they leave year 3, children will:

- Be responsible and reflective learners
- Have a love of learning which is fostered through a broad and balanced curriculum
- Be resilient
- Be problem solvers
- Be independent learners
- Be confident
- Be Year 4 ready
