

Learning at Home

We cannot stress enough the importance of spending time with your children enjoying activities and time in the outdoors. Please continue to support your child with their reading and write your comments in their reading record book. We would also like to provide you with learning ideas that you can complete as a family. The below activities are meant to be fun and enjoyable for everyone. If your child is not engaging then leave it for a while and try again another day. The activities can be completed at anytime over the half term and brought into school for the children to celebrate with their friends.

Rainbow Colour Mixing

You will need:

- a bowl
- 1 cup of milk
- Food colouring
- Washing up liquid

Carefully pour a cup of milk into the bowl. Add the food colouring carefully. Squeeze the washing-up liquid. What happens?

Go on a Spring walk

Go on a Spring walk around your local park or woodland area. Take photographs of signs of Spring, including flowers, blossom trees and insects.

Learning in Reception

Science Detectives!

Learning in Early Years

“Science Detectives”

This half term we will become Science Detectives. We will be enjoying a day trip to Imagine That where we will be able to get hands on with lots of different experiments, making slime, bubbles and even making our own snow.

Back in school, we will continue to explore a range of scientific topics, encouraging children to ask questions, investigate, and develop their understanding through fun and practical experiments. It's set to be an inspiring and curiosity-filled half term!

Learning in Literacy

Speaking and Listening

We will enjoy listening to lots of lovely stories all based around Science such as Whatever Next by Jill Murphy and Funny Bones by Janet and Allen Ahlberg. We will be focusing on articulating our ideas using full sentences.

Reading

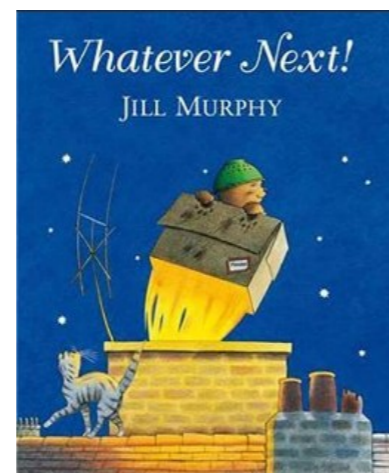

We will be reading lots of fiction and non-fiction texts both as a focus for our Literacy lessons and to also instil a love of reading. The children will read on a one to one basis each week and will have reading books sent home. It is important that the children read at home for 10-15 minutes every day.

Writing

We will be writing simple sentences based on the text we are reading or an experience that we have enjoyed. We will use our phonics knowledge to spell words containing the sounds we have previously learnt in our phonics sessions. We will be Labelling the parts of a skeleton and writing a postcard from baby bear to his mum.

Working together, parents as partners.

Please support your child by reading with them on a daily basis. Whether reading a story to them or listening to your child read their school reading books. You can also practice counting backwards and forwards to 10 and support your child as they practice writing tricky words.

Learning Outdoors

Outside, we will be looking for signs of spring and discussing the changes between each season. We will observe how the weather becomes warmer, plants begin to grow.

We will also take part in caring for and maintaining our outdoor area. This will include activities such as picking out weeds, watering plants, and helping flowers and plants to grow.

Learning in Maths

In Maths we will be continuing to explore numbers. We will begin to explore our teen numbers and focusing on how we can build these numbers. We will be beginning to explore numbers beyond 20. We will be also looking at shapes and seeing which 2D shapes can fit into 3D shapes.

Role Play and Small World

We have transformed our role play area into a cardboard kingdom, Where children can use their imagination to create anything they want.

Personal, Social and Emotional Education

We will be focusing on becoming more independent and will continue to talk about our feelings and emotions.. We will also continue to work on our social and communication skills.

Points to Remember

Please bring reading bags into school daily so that we can listen to the children read and change their books.

Ensure your child has a good waterproof winter coat to wear during outdoor play and a pair of wellington boots. Make sure your child's name is written on all of their clothing.

Children will wear their P.E kits for school on Wednesdays.
